

SUMMARY

As a first-year engineering student with a keen interest in technology, I am dedicated to learning and mastering new technologies. My early academic experiences have provided me with a solid foundation in different tech stacks, and I am actively seeking opportunities to apply and expand my skills. I am eager to contribute to innovative projects and gain hands-on experience in a dynamic tech environment.

EDUCATION

I.M.S Engineering College

BTECH - Computer Science and Engineering
2024 - 2028

Ingraham Institute English School (ISC)

High School and Intermediate (88%)
Mathematics and Computer science
2022 - 2024

SKILLS

TECH STACK

- HTML
- CSS
- Java Script
- React-js
- Flutter (learning)
- Data Structures and Algorithms in JAVA
- C++ (Currently working upon)

GEN SKILLS

- Conversation
- Leadership
- Active Participation
- Collective growth

CODING PLATFORMS

- LeetCode
- Github
- CodeChef

VOLUNTEERING

- GDSC - Member
- MSLA (Microsoft) - Student Ambassador
- Rendezvous IIT-D - Campus Ambassador
- GSSoC - Mentor and Contributor

PROFESSIONAL EXPERIENCE

Front End Developer - Intern

MeriSkill | (October - Present)

- React Proficiency: Developing dynamic user interfaces with React, leveraging hooks and state management for enhanced user experiences.
- MERN Stack Knowledge: Gaining expertise in the MERN stack (MongoDB, Express.js, React, Node.js) for full-stack development.
- Component-Based Architecture: Building reusable components to streamline development and improve maintainability.
- API Integration: Implementing RESTful APIs to connect frontend applications with backend services seamlessly.

Web Developer - Intern

NullClass | (June - July)

- Developed responsive and user-friendly web applications using HTML5, CSS3, and JavaScript.
- Collaborated with cross-functional teams to understand project requirements and translate them into technical specifications.
- Developed a ecommerce website and my own Portfolio by side my tasks assigned using learned tech stack.
- Upskilled myself with the upcoming technologies and tech stacks as well as became best performer of the week.

Java Developer - Intern

CodeClause | - (April - June)

- Developed and debugged Java applications.
- Collaborated with senior developers on various projects.
- Wrote clean and efficient code.
- Enhanced problem-solving skills through practical challenges.

PROJECTS

- E-commerce Website
- Weather forecasting and alarming system.
- Interactive Portfolio website
- Email jamming track system - Contributed
- Netflix, Amazon, Spotify clones.
